

ELEVEUR DAIRY APRON

PPE Category I  **1** (limited wearing time) **EN 343: 2019**
X

420 PVC coated double-sided fabric for easy cleaning. Complete waterproof protection suitable for many activities, such as milking. There is a strap for holding teat soaking cups for teat disinfection after milking.

Can be put on very quickly like a pinafore.

Fastens at the back with an elastic cord and plastic hook. Very long, it covers boots to below the knee.

- 2 straps for carrying teat dip cups.
- Long sleeves tightened by neoprene cuffs for greater waterproofing.

i *For maximum protection, the ELEVEUR dairy apron can be worn with gloves and PPE classed wellington boots.*
