

TOP EFFICIENT

- An **inner neoprene collar** prevents all **water ingress** with a self-grip adjustment tab.
- **The hood** is made **watertight with thermal bounded taped seams**, offering **extra protection** on this very effective top. It can be adjusted using an elastic cord and toggle on either side.
- The sleeve ends have **neoprene cuffs**, which prevent water getting in when you want to put a fish back in the water or when you have to raise your arms to adjust your rod.
- The **bottom of the top** is also made of **neoprene**, to prevent all air or water ingress. **Self-grip tabs** can be used to adjust it to your shape.
- **The front pocket closes with a self-grip flap and is perfectly watertight.**
- The clothing was designed with raglan sleeves with plenty of room to make casting your line much easier.
- It has a mesh lining.

Fabric : C130

The C130 fabric is light, highly breathable and watertight. Its water resistance is 20 m in the water column test. The moisture permeability, i.e. its breathability, is 20000 g/m² in 24 hours. Its total weight is 130 g/m². Net lining: 100% polyamide.

Colours : NOIR

Sizes : XS, S, M, L, XL, XXL, XXXL,
