

NUNKI TROUSERS

Light highly technical version for competitive and summer boating.

The areas subject to the most wear at the bottom of the garment and on the seat are made of Dremtech+ 3+2 layers, famous for its quality and durability. The top of the trousers is designed using a lighter, very breathable 3-layer fabric.

- Large double slider zip on waterproof gusset.
- Elastic braces lined in fabric for greater comfort. Self-grip tab adjustment.
- Double self grip flap waterproof cargo pocket on the thigh and knife holder.
- Large fluorescent self-grip adjustment tab
- Loop at back for hanging garment.

Fabric : Dremtech+

Dremtech+ is a high-tech breathable fabric. It is also comfortable and tough. Comprising 3+2 layers: 3 for breathability with hydrophile lamination and micro-porous coating, 2 for the inside integrated lining and the outer water repellent treated fabric.
